

Academic Exploration and Interest Development Classes

Fostering whole-person development is a top priority for educators and schools around the world. 3Education offers a wide variety of academic exploration and interest development classes for students to choose from. By integrating 3Education's solutions with the 5G network, schools can make these courses even more engaging and dynamic.

- Academic exploration classes encompass subjects such as English, Chinese, Mathematics, and Mandarin
- Interest classes include visual arts, ballet, taekwondo, abacus mathematics, and music
- These classes encourage students to explore different interests and exchange ideas with their peers
