

## Aerial Photography Course

Aerial photography is becoming more popular in the film and television industry, providing audiences with an immersive viewing experience. 3Education's Aerial Photography course allows students to experience the excitement of aerial photography while improving their physical coordination.

- Employs a comprehensive whole brain learning approach: sharpens students' focus and cultivates their ability to think from multiple perspectives
- Introduces the basics of capturing ground conditions from different angles
- Teaches techniques for flying a drone

### 航拍課程

今時今日，航拍技術在影視圈越來越受歡迎，為觀眾帶來沉浸式觀賞體驗。3Education 的航拍課程不僅可以讓學生體驗航拍的樂趣，更能提高其身體協調能力。

- 採用「全腦學習法」：提升學生的專注力，培養多角度思考的能力
- 介紹如何從不同角度捕捉地面情況的基礎知識
- 教授操縱航拍機的技巧
